

November 6, 2018

Dear Mrs. O'Conner,

My name is Despina and my husband is Michael and it would be our pleasure to recommend Roberto and Michele as adoptive parents.

I have known Michele since freshman year of H.S. in 1992. We lived a block away from each other and have been best friends ever since. We met Roberto when they started dating 13 years ago and since then, our husbands have become very good friends as well. We have seen, first hand, how loving and caring they are towards their son Nathaniel. Roberto and Michele have always put family first and have taught their son the importance of family and friends.

Me and my husband have 3 children of our own and they love going over their house. They play cars, superheroes or hide-and-seek. Our get-togethers are filled with laughter and fun. It's a joy to watch Roberto and Michele playing and interacting with their son, whether it's schoolwork or sports. They truly are an amazing couple which have made a stable and secure home for their family and would be ecstatic to welcome a new child into their lives. Nathaniel would be an awesome big brother as well.

Nothing would make us happier than to see this loving family blessed with another child.

Sincerely,

Michael & Despina
